NEW JERSEY PEACH COUNCIL, INC.,
NEW BRUNSWICK, NEW JERSEY

NECTARINE AND LOW ACID PEACH TREES
SPRING, 1948

N E C T A R I N E S

Nectarines are more susceptible to brown rot than peaches, and, therefore, require thorough and more frequent spraying. In addition to the Garden State, a yellow-fleshed nectarine introduced in 1934, by the New Jersey Agricultural Experiment Station, the New Jersey Peach Council now offers trees of the following four white-fleshed varieties, all originated at the New Jersey Agricultural Experiment Station. All of these new varieties have been less susceptible to brown rot at New Brunswick than Garden State. They provide a succession of large nectarines from the middle of August until the second week in September at New Brunswick, N. J.

NECTAROSE (N. J. 9)

A large freestone, ripening just before the Garden State, or about with the Sunhigh peach.

NECTAHEART (N. J. 10)

A large freestone completely shaded with red, ripening immediately after the Garden State. Some specimens grown at New Brunswick have been over 2 1/2 inches in diameter.

NECTACREST (N. J. 8)

This large, attractive, white-fleshed freestone usually ripens with the Summercrest peach at New Brunswick or about one week after Nectaheart.

NECTALATE (N. J. 4)

This is the latest variety to ripen among all the nectarines offered by the New Jersey Peach Council. It usually ripens with the Afterglow peach, or nearly two weeks later than Nectacrest.

GARDEN STATE (U. S. Plant Patent 92)

A large, firm, yellow-fleshed, freestone of high quality ripening with the Goldeneast peach. It is very desirable for slicing, canning, and freezing. Requires thorough and frequent spraying, under conditions of high humidity, to control brown rot.

LOW ACID PEACH VARIETIES

Low acid peaches should be of special interest to persons who are troubled with hyper-acidity or peptic ulcers, since they may be eaten by such persons without the discomfort that follows the consumption of fruits having a normal amount of acid.

Trees of two of these low acid varieties of peaches developed at the New Jersey Agricultural Experiment Station have been named and are now being offered by the New Jersey Peach Council. They are Honeygem and Newcheer. Both varieties ripen about a week after Elberta, or with Afterglow and Laterose. Both are free-stones of medium size. Honeygem is a yellow-fleshed variety and Newcheer is white.

THEORY OF THE EARTH

1. The Earth is a sphere of about 8000 miles in diameter.

2. The Earth is composed of a solid crust, a liquid mantle, and a solid core.

3. The crust is about 100 miles thick and is composed of various rocks.

4. The mantle is about 2000 miles thick and is composed of molten material.

5. The core is about 1000 miles in radius and is composed of molten iron and nickel.

6. The Earth's magnetic field is generated by the rotation of the molten core.

7. The Earth's atmosphere is composed of various gases, including oxygen, nitrogen, and carbon dioxide.

8. The Earth's hydrosphere is composed of all the water on the planet, including oceans, lakes, and rivers.

9. The Earth's biosphere is composed of all the living organisms on the planet.

10. The Earth's geosphere is composed of all the geological features on the planet, including mountains, valleys, and rivers.

11. The Earth's atmosphere is composed of various gases, including oxygen, nitrogen, and carbon dioxide.

12. The Earth's hydrosphere is composed of all the water on the planet, including oceans, lakes, and rivers.

13. The Earth's biosphere is composed of all the living organisms on the planet.

14. The Earth's geosphere is composed of all the geological features on the planet, including mountains, valleys, and rivers.

15. The Earth's atmosphere is composed of various gases, including oxygen, nitrogen, and carbon dioxide.

16. The Earth's hydrosphere is composed of all the water on the planet, including oceans, lakes, and rivers.

17. The Earth's biosphere is composed of all the living organisms on the planet.

18. The Earth's geosphere is composed of all the geological features on the planet, including mountains, valleys, and rivers.

19. The Earth's atmosphere is composed of various gases, including oxygen, nitrogen, and carbon dioxide.

20. The Earth's hydrosphere is composed of all the water on the planet, including oceans, lakes, and rivers.

21. The Earth's biosphere is composed of all the living organisms on the planet.

22. The Earth's geosphere is composed of all the geological features on the planet, including mountains, valleys, and rivers.

23. The Earth's atmosphere is composed of various gases, including oxygen, nitrogen, and carbon dioxide.

24. The Earth's hydrosphere is composed of all the water on the planet, including oceans, lakes, and rivers.

25. The Earth's biosphere is composed of all the living organisms on the planet.

26. The Earth's geosphere is composed of all the geological features on the planet, including mountains, valleys, and rivers.

27. The Earth's atmosphere is composed of various gases, including oxygen, nitrogen, and carbon dioxide.

28. The Earth's hydrosphere is composed of all the water on the planet, including oceans, lakes, and rivers.

29. The Earth's biosphere is composed of all the living organisms on the planet.

30. The Earth's geosphere is composed of all the geological features on the planet, including mountains, valleys, and rivers.

ORDER BLANK

To the New Jersey Peach Council, Inc.,
Box No. 3-55,
R. F. D. No. 3,
Princeton, New Jersey.

I would like to place an order for the following trees:

NECTARINES

VARIETY	NUMBER OF TREES	GRADE PREFERRED
Garden State (U. S. Plant Patent 92) _ _ _ _ _	_ _ _ _ _	_ _ _ _ _
Nectarose (N. J. 9) _ _ _ _ _	_ _ _ _ _	_ _ _ _ _
Nectaheart (N. J. 10) _ _ _ _ _	_ _ _ _ _	_ _ _ _ _
Nectacrest (N. J. 8) _ _ _ _ _	_ _ _ _ _	_ _ _ _ _
Nectalate (N. J. 4) _ _ _ _ _	_ _ _ _ _	_ _ _ _ _
_ _ _ _ _	_ _ _ _ _	_ _ _ _ _

LOW ACID PEACHES

Newcheer (L. A. 5) _ _ _ _ _	_ _ _ _ _	_ _ _ _ _
Honeygem (L. A. 8) _ _ _ _ _	_ _ _ _ _	_ _ _ _ _

LIABAILITY AGREEMENT

Great care is used to avoid mistakes, but in case any trees prove to be untrue to the name under which they are sold, the original order will be replaced or the amount actually paid for such stock at the time of purchase will be refunded. The purchaser agrees to accept the trees on these terms.
